

Choosing the Right Model

How to Select the right Uticor iMarquee for your application requirements

1. Determine how many lines of data are required to be displayed all at once (2 or 4 Lines Available)
2. Determine how many characters across are needed to be displayed all at once. (10, 20, or 40 characters across)
3. How far do you need to view the marquee message (100, 200, 300, or 400 ft away)? Note this will determine how many lines of data and characters can be displayed at one time depending on the marquee size selected. See Table 1 for size selection reference to the right.
